About

A passionate and detail-oriented Frontend Developer with hands-on experience in creating visually stunning, responsive websites. Skilled in HTML, CSS, JavaScript, React, and Bootstrap, I excel at building user-friendly interfaces and ensuring seamless performance across devices.

Skills

Expertise: HTML5, CSS3, JavaScript, React.js, Bootstrap, Responsive Web Design.

Comfortable: Version Control (Git), Rest API.

Familiar: Tailwind CSS, Github.

Personal Projects

[Shop House](#): A dynamic e-commerce platform designed to offer a seamless shopping experience, featuring a user-friendly interface, responsive design.

[Resume Maker](#): A user-friendly web application that allows users to effortlessly create, preview, and download professional resumes.

[To-Do App](#): A simple and intuitive task management application that helps users organize, prioritize, and track their daily tasks with ease.

Experience

[Learn and Build](#) : As a Fullstack Developer Intern at Lnb, I work on both frontend and backend development to build comprehensive web applications. On the frontend, I utilize HTML, CSS and JavaScript, to create responsive user interfaces.

Full Stack Web Developer (Intern)
May 2023- July 2023

[Cloudfort Technologies](#): As a Frontend Developer Intern at Cloudfort Technologies, I collaborate with the development team to build and enhance responsive web applications.
